

2007-2018 Jeep Wrangler JK 4WD Shift Knob

D-JP-180011-BK – Gloss Black Anodized Finish

D-JP-180011-BL – Gloss Silver Anodized Finish

JEEP 4WD SHIFT KNOB (JK) Install Instructions

- 1 Grab original shift knob and pull it off the stock shifter. It will come off using a bit of extra force
- 2 Remove the tire tread from the DV8 Offroad Shift Knob
- 3 Notice the set screw on the side of the DV8 Offroad shift knob
- 4 Slide shifter on, lining up the set screw with the flat face on top of the shifter
- 5 Tighten set screw and re-install tire tread. Make sure to not over tighten and strip the set screw

2 Tighten set screw and re-install tire tread. Make sure to not over tighten and strip the set screw
